**A VOCATION VIEW:** Peter, who once denied even knowing Jesus, now boldly preaches in His Name. Do not let past weaknesses hold you back from being willing to share the power of His Message.

**APRIL IS STRESS AWARENESS MONTH**

Mental health can positively or negatively impact your physical health and risk factors for heart disease and stroke, according to "Psychological Health, Well-Being, and the Mind-Heart-Body Connection," a scientific statement in the American Heart Association Journal Circulation.

Stress may contribute to poor health behaviors linked to increased risk for heart disease and stroke, such as: smoking, overeating, lack of physical activity, unhealthy diet, being overweight, and not taking medications as prescribed.

**TRY THESE STRESS-BUSTERS**

Fight stress by focusing on your physical and mental health.

**Get out of the house:**  
Take a walk in nature and enjoy the sights and sounds.

**Sleep tight:** Set a regular bedtime and wakeup routine and turn off or dim electronic screens as bedtime approaches.

**Use your network:**  
Reach out and connect regularly with family and friends.

**Put your mind to it:** Explore mindfulness, a type of meditation that focuses your attention on your present experiences without interpretation or judgment.

**Lean on a furry friend:**  
Pets may help reduce physiological reactions to stress.

**Work it out:** Regular physical activity — a recommended 150 minutes of moderate activity, 75 minutes of vigorous activity, or a mix of both weekly — can relieve tension, anxiety and depression and give you an immediate exercise "high."
